DETAILED ACTION

1. The amendment filed on June 29th, 2007 overcomes the following objection/rejection of the last Office Action:

a. Rejection to the claims 13 and 14 for 35 U.S.C. 112 insufficient antecedent basis.

Response to Arguments

1. Applicant's arguments filed on June 29th, 2007 have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-3, 5, 10, 16, 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art (fig. 1) [hereinafter, refers to as "prior art"] in view of Shirota et al, US 2003/0142773 for the same reasons as set forth in the last Office Action.
- 3. Claims 4 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art (fig. 1) [hereinafter, refers to as "prior art"], Shirota et al,

US 2003/0142773 and in view of Sato et al, US 6807233 for the same reasons as set forth in the last Office Action.

- 4. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art (fig. 1& 2) [hereinafter, refers to as "prior art"], Shirota et al, US 2003/0142773 and in view of Baba et al, US 5528198 for the same reasons as set forth in the last Office Action.
- 5. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art (fig.1 & 2) [hereinafter, refers to as "prior art"], Shirota et al, US 2003/0142773 and in view of Boss, US 7103343 for the same reasons as set forth in the last Office Action.

Response to Remarks

In response to the applicant's remarks, applicant's argues that the reference fails to disclose that a clock signal generating circuit that generates at least two clock signal groups and dynamically selected one of the at least two clock signal groups for data recovery. Examiner respectfully disagrees. Applicant's admitted prior art teaches that a clock signal generating circuit that generates at least two clock signal group (fig.1), page 1, Para [0017], it teaches that prior art has 3 clock signal group, "the PLL 11 generates a plurality OSR (where OSR is an integer oversampling rate; OSR equals 3) of phase clock signals CLKA, CLKB, CLKC). The applicant's admitted prior art also teaches that the data recovery circuit that recovers the effective data from the serial data (which is SI DATA) by oversampling (which is the oversampler) the serial data (page 4, fig.1).

Application/Control Number: 10/782,705

Art Unit: 2611

On the other hand, Shirota discloses about the dynamically selecting one of the at least two clock signal group (which will be the clock signal group (109) for the data recovery in page 2, figs. 1&2, Para [0035], "the DCR (data/clock recovery) circuit 104 selects from the clock signal group 109 the optimum clock signal for loading the receive output 107, and adopts it as the recovered clock signal 110 which is different than applicant's admitted prior art.

For the same reason above, the previous grounds or rejection as set forth in the last Office Action are maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
